

“I will take the hassle out of the Health & Safety and Fire Regulations.”

If you run any business whose premises are accessible to clients, customers or staff, you must carry out Health & Safety and Fire Risk Assessments. Failure to comply can incur severe penalties and almost certainly will do so in the event of a serious accident on those premises.

- I am on your side. I'll explain the regulations carefully so you understand just what the law requires and how it applies to you.
- I shall keep it simple and make sure you understand specifically what adjustments, if any, may be needed at your premises and “hold your hand” throughout the process.
- I shall prepare everything for you that is needed to comply and offer advice over the phone for the following 12 months.
- I aim to give you peace-of-mind. A bit like an insurance policy. Knowing it has been done properly will let you sleep at night.

I am Nicki Worley; since 2002 my consultancy has been helping small businesses through the Health & Safety and Fire Safety laws.

Why not call me for a preliminary chat? It won't cost you a penny. I shall be happy to answer questions that may be troubling you regarding Health & Safety or Fire Safety. I will explain what the law requires and give you an idea of costs. Do call me or email me at nworley@nwconsultancy.co.uk. You will be under no obligation.

Nicki Worley is a qualified Health, Safety and Environmental consultant and Fire Risk Assessor. She is a member of the Institute of Occupational Safety & Health (IOSH) and the Fire Protection Association (FPA). In 2010 she received a Best Candidate award from the National Exam Board in Occupational Safety and Health (NEBOSH).
